

*... it's not just about feasting on blasphemy*

*– it's about declining society because of their behaviour*

*in their own purgatory...*

Formed in 2011, MAGOTH existed for the moment as a side project of guitar player and singer Heergott. The intention to create a band project which differs from common bands particularly in the common complex of themes gave rise to six songs which had been recorded in a studio but not published back then.

With the joining of the guitar player and background singer Shagnar in 2013 concrete plans for a release of the songs as a demo player under the title of DER TOTEN GESANG were made.

Rehearsals with the drummer Widrir in 2015 unveiled the true potential of MAGOTH'S sound whose brute and raw riffing gets frequently crossed by doom and atmospheric passages.

In cooperation with Liquid Aether Audio the demo player had been arranged and was released on 4<sup>th</sup> april 2016.

Due to the confirmation of several shows the bass player's position was firstly filled by a guest musician but a short time later assumed by Havoc.

On 30<sup>th</sup> june 2017 MAGOTH released their first full length player under the title ANTI TERRESTRIAL BLACK METAL. The debut album brought a huge and consistently positive feedback from all over the world. The limited first pressing of only 200 pcs. was sold out within 11 weeks.
